## **DETAILED ACTION**

### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-17, drawn to a package, classified in class 257, subclass 780.
- II. Claims 18-38, drawn to making the package, classified in class 438, subclass 614.

The inventions are distinct, each from the other because of the following reasons:

Inventions II and I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case said gasket could have been formed prior to the formation of said bonding pad. To the alternative, the step of locating said device could have preceded that of forming said pad.
